DESCRIPTION

Bigger and brighter 8K LED.

Push the limits with 8K resolution, maximum contrast, rich color and the fluid action of 120Hz refresh rate. QNED Mini-LED ushers in revolutionary brightness and contrast with miniLED in tandem with the maximum color of Quantum NanoCell Color Technology. MiniLED technology uses smaller LEDs to maximize precise luminance, a higher level of contrast for more brilliant colors and deeper blacks. Our most advanced 8K AI processor optimizes every scene. Couple that with hands-free voice control and Wi-fi 6 for better connectivity.
