KEY FEATURES

Gallery OLED Design

A TV that's a work of art.

This is art-inspired TV. Perfect lines. Bezel-less design. Impossibly thin. No gap from screen to wall. LG OLED TVs are designed, crafted, and engineered to put the spotlight on your content, yet complement your home's interior even when they're turned off.

Pixel Level Dimming

8.3+ million pixels control the light show.

Millions of pixels emit their own light. Only OLED can turn pixels off completely and independently. No LED/LCD TV can do that. See stunning picture, perfect black, infinite contrast and over a billion rich colors. Once you've seen LG OLED TV, you'll understand the difference.
