

XBR55X900H

X900H® 4K HDR LED TV

All of your favorite content, displayed in rich and life-like 4K HDR.¹ The X900H is engineered with picture quality in mind, complimented by Full Array LED, TRILUMINOS Display, and X-Tended Dynamic Range technologies contributing to an experience that accurately portrays everything you watch and play.

Bullets

- Upscale everything with the 4K HDR Processor X1 and 4K X-Reality PRO.²
- See exactly what the creator intended with the advanced color and gradation of TRILUMINOS™ Display.
- Enhanced brightness, incredible contrast with Full Array LED and X-tended Dynamic Range™.
- On-screen action and motion look better than ever with X-Motion Clarity™ technology.
- Acoustic Multi-Audio beautifully matches picture and sound with discretely mounted tweeters. (Available on 65" class and larger)
- Compatible with Google Home⁵, Amazon Alexa⁶, and Apple HomeKit⁷ for an even smarter home.
- Beautiful design immerses you in the picture with a slim, aluminum frame and minimalist stand.¹⁰
- Hang your TV like a work of art with the ultra-slim wall-mount bracket for select Sony BRAVIA™ OLED and LED TVs.¹¹
- CalMAN™ auto calibration mode makes high-performance screen calibration easier than ever.¹²

Features

Power to upscale to a more natural picture.

See glorious 4K pictures, rich with real-world detail and texture, powered by our 4K HDR Processor X1. Even images filmed in Full HD are upscaled close to 4K resolution by 4K X-Reality™ PRO using a unique 4K database.^{1,2}

TRILUMINOS Display, bringing you all the world's colors

By widening the color spectrum, TRILUMINOS Display, powered by the 4K HDR Processor X1, reproduces more colors than a conventional television. It analyzes and processes data in every image to make colors even more natural and precise so pictures are closer than ever to real life. See exactly what the creator intended with the advanced color, light, and gradation of the TRILUMINOS™ Display.

Enjoy the precision of true-to-life contrast

Discover how real pictures can be when you bring out the fine details. By controlling light levels in sections of the screen independently, Full Array LED provides more realistic contrast by making light areas lighter and dark areas darker. Contrast is further enhanced by X-tended

SONY

Dynamic Range™, which adjusts brightness for higher peaks in highlights and detailed blacks in shadow.

Watch what you love, control it with your voice.

Sony's Android TV with the Google Assistant provides a smarter viewing experience. Easily search and watch your favorite movies, get answers on screen like sports scores or weather updates, control your TV and even your home - all with your voice. Just start with pressing the Google Assistant button on your remote to ask it questions, control smart home devices or access many of the apps and services you already use every day.³ In addition, cast your favorite apps with Chromecast built-in⁴, or enjoy a huge range of apps from Google Play™, including YouTube™, Netflix, Prime Video, Spotify, and more.³

Bright and clear motion

Scenes appear as they do in real life with X-Motion Clarity™ technology. This revolutionary, best in class technology from Sony refines action on the screen in real time with an incredible refresh rate for action that is brighter and clearer than ever before.

Beautifully matched picture and sound

Sound on conventional TVs with a speaker located below the screen is often out of sync with the picture. Our Acoustic Multi-Audio™ includes two sound positioning tweeters at the back of the TV that enable sound to follow the action for a truly immersive experience. (Available on 65" class and larger)

Well-connected to your smart home

With Google Home⁵ and Amazon Alexa⁶ compatibility, simply voice-control your TV and ask it to do things like cast and control videos from YouTube with Google Home or change the channel or volume with Amazon Alexa. Apple HomeKit and Airplay 2 support seamlessly integrate your iPhone and Siri devices with your Sony TV for effortless smart home management and content streaming.⁷

See the big picture with HDR, Dolby Visions and Netflix Calibrated Mode

High Dynamic Range (HDR) picture is the way TV was always meant to be watched. Ultra-high resolution and HDR video content combine to bring dazzling detail, color and contrast to everything you watch, while keeping a far wider range of brightness.¹ Dolby Vision™ brings scenes to life with striking highlights, deeper darks and vibrant colors.⁸ Netflix Calibrated Mode was specially developed to enjoy Netflix original content and reproduce picture quality as brilliant as the studio evaluation monitor, faithfully reproducing the creator's intent and vision.⁹ Whichever format, Sony TVs deliver picture-perfect reality, creating an immersive and engaging cinematic experience.

Minimal design immerses you in the picture

See how our beautiful design immerses you in the action and keeps you focused on the picture, not the television. The slim, aluminum frame gives the TV a luxurious look and feel for a truly cinematic viewing experience. The thin metal stand takes a minimalist approach and blends

beautifully in contemporary rooms.¹⁰

Mount your Sony TV like a work of art

Make the most of your living space. The SU-WL855 ultra slim wall-mount bracket is designed to hang select Sony BRAVIA™ OLED and LED TVs flush to the wall, just like any other work of art. Pull out your TV and swivel it left to right to adjust the screen angle for optimal viewing.¹¹

Experience content as the director envisioned

When pictures are digitally compressed from film to TV, quality is compromised and your experience is not as the director intended in the studio. A wide range of unique features lets you enjoy studio-quality entertainment in your own home, just as the director envisioned.

High performance calibration for professionals

Our TVs receive high performance calibration that has never previously been possible using CalMAN™ software. It allows adjustments to be made with finer precision than conventional picture quality settings to meet the strict requirements of creators in the post-production stage. Colors are reproduced with maximum fidelity to the original TV signal, giving exceptional picture control for a TV. CalMAN also features an easy-to-use interface that has been well received by calibration specialists.¹²

| Supplied Accessories | |
| Batteries | LR03 |
| AC Power Cord Spec | (C7L) (US) (2pin) (flat blades) |
| Operating Instructions | US,FR |
| Quick Setup Guide / Supplement CUE (GA) | US,FR,ES,PT |
| Table Top Stand | Separate(assembly required) |

1) 8K: 7,680 x 4,320 pixels. 4K: 3,840 x 2,160 pixels. Requires HDR compatible content from supported streaming services, such as Netflix, Amazon Video or HDR compatible content device connected via HDMI input. Requires HDMI[®] cables sold separately

2) Upscaled, simulated and enhanced 8K and 4K images will vary based on source content.

3) User must connect to a Google account to use, including voice to activate linked apps. Wireless connectivity requires 802.11 home network (802.11n recommended). Network services, content, and the operating system and software of this product may be subject to separate or third party terms and conditions and changed, interrupted or discontinued at any time and may require fees, registration and credit card information. Apps must be compatible with TV. App availability varies by region and device. Use of this TV requires consent to Google Terms of Service (<http://www.google.com/policies/terms/>) and Privacy Policy (<http://www.google.com/policies/privacy/>).

4) Chromecast built-in compatibility dependent on app.

5) Google Home device (sold separately) compatible with Sony TV's powered by Android TV. Requires compatible devices connected to the same wireless home network. Download the Google Home app from the iPhone App Store or Google Play. Subject to third party app terms and conditions. User must link compatible devices in order to control operation. Once download is complete, the Google Home feature may be connected to the Sony device to access the voice control function

6) Amazon Alexa enabled devices (sold separately) compatible with Sony TV's powered by Android TV. Amazon account required. Subscriptions may be required to access certain content. Compatible devices require internet connection.

7) This Sony TV is compatible with AirPlay 2 and HomeKit. iOS 12.2 or later or macOS 10.14.4 or later is required. Apple ID account required. Subscriptions may be required to access certain content. AirPlay firmware update is required and will be available in winter 2020.

8) Dolby Vision content is compatible with streaming services such as Netflix, Amazon Video or compatible content device connected via HDMI input. Requires HDMI[®] cables sold separately.

9) Netflix streaming membership required. 4K Ultra HD availability subject to your Netflix subscription plan, internet service, device capabilities, and content availability. www.netflix.com/termsfuse

10) Actual look may differ depending on TV size and type of cables used.

11) SU-WL855 wall-mount bracket is available for select Sony OLED and LED models ranging from 55" class to 75" class. TV and wall mount system sold separately. Hardware included with wall-mount bracket.

12) Requires separately sold CalMAN calibration software to be installed on your PC, a pattern generator, a meter (colorimeter, spectrophotometer etc.), and CalMAN for BRAVIA app to be downloaded from Google Play and installed on your TV. Internet needed to utilize app services on TV. Network services, content, and software of this product may be subject to separate terms and conditions and changed, interrupted or discontinued at any time and may require fees, registration and credit card information.
