Picture

- MICRO LED Technology
- MICRO AI Processor¹
- 4K AI Upscaling¹
- MICRO Color
- Motion Xcelerator 120Hz
- Adaptive Picture™
- FreeSync Compatible
- Auto Game Mode (ALLM)
- Super Ultrawide GameView & Game Bar²

Design

- Monolith Design
- Zero Bezel
- One Pure Plate Stand

Smart Features³

- Samsung Tizen OS
- Universal Guide
- Ambient Mode
- Built-in Voice Assistant⁴
- Samsung TV Plus
- Samsung Smart Hub
- Multi View
- SmartThings Compatible⁵
- Samsung Health⁶
- PC on TV
- ConneCTime
- Samsung Gaming Hub⁷

Connections

- 8 HDMI Ports⁸
- HDMI 2.1 Features Supported:
 - Auto Low Latency Mode (ALLM), supported on all ports
 - Fixed Rate Link (FRL) 4K@120Hz, supported on ports 5/6
- Variable Refresh Rate (VRR) supported on all ports
- Enhanced Audio Return Channel (eARC), supported on port number 3
- 2x USB-A Connections
- LAN Port
- Wi-Fi 6 built-in Wi-Fi

Audio

- Arena Sound
- Dolby Atmos™ and Object Tracking Sound Pro
- Q-Symphony⁹
- Active Voice Amplifier Pro
- Adaptive Sound +
- Dolby® Digital Plus
- 120 W 6.4.4Channel

Included Accessories

- SolarCell Remote™ (TM-2360E)
- One Connect Box

¹ Utilizes AI-Based formulas

² Super Ultra Wide Game View is supported for PC games only. Super Ultra Wide Game View is only available for ultra wide supported games. Some game titles may not support the function or be limited to use this feature. Screen resolution change from external device may be required.

³ Samsung Account required for network-based smart services, including streaming apps and other smart features. Separate [connected] computer, mobile or other device may be necessary to create/log in to Samsung Account (free to download and create). Without Account log in, only external device connections (e.g., via HDMI) and terrestrial/over-the-air TV (only for TVs with tuners) available.

⁴ Alexa is built-in.

⁵ SmartThings compatible devices only. SmartThings app download may be required.

⁶ Subscriptions may be required for some services. Smart Trainer support devices may vary by country. Partners and content may vary by region.

⁷ High speed Internet connection, additional gaming service subscriptions, and compatible controller required.

⁸ MS1B 101" and 89" has 6 HDMI ports. HDMI—CEC (Consumer Electronics Control) facilitates convenient control functions with compatible devices.

⁹ Q-Symphony requires compatible 2020-2024 Samsung TV and either a Q-series or S-series soundbar.

TOP 10 KEY FEATURES

PICTURE

MICRO LED Technology

Witness infinite contrast delivered by millions of microscopic LEDs in one screen. With no backlighting or color filters, the self-luminating display uses individual micro LEDs with absolute control to bring you a level of brightness you simply can't imagine.

Monolith Design

Make a bold statement with the monumental yet minimal design built to immerse you. The majestic MICRO LED was created to captivate. Slim, bezel-less and engineered to fit perfectly against the wall, it enhances your space without distraction.

Arena Sound

With sound this powerful, you might wonder where all the speakers are hidden. Experience magnificent 3D Arena Sound that moves above and all around you—from nearly invisible speakers in the display—to transport you to the center of the action.

Multi View¹

Keep up with it all—all on one convenient screen, all in real-time with 4Vue. For work, sports, news, entertainment, communication and life in general, enjoy as many as four different sources of your content side by side on your MICRO LED display.

MICRO Contrast

Binge with breathtaking results. Get lost in brilliant whites and inky blacks. And do it all thanks to the individually controlled pixels that give you our most intense contrast imaginable.

MICRO Color

See each shade across the spectrum come to life for color worth obsessing over.

MICRO HDR

Whether the scene calls for ice caves or desert sand, ultra-realistic texture and dimension enriches every picture through nearly infinite gradations, so you'll feel like you're there.

MICRO AI Processor²

See your picture perfected to stunning 4K resolution with AI upscaling. By analyzing and upgrading your content's resolution and contrast, the MICRO AI Processor reveals the rich details that make the world look better and so much brighter.

Infinity Screen

Experience virtually no boundaries between your content, the screen and the wall behind it. To say the Infinity Screen blends into your décor would be an understatement. This is the very definition of immersive.

Dolby Atmos™ and Object Tracking Sound Pro

Hear what happens where it happens with built-in channels that track the action. With Object Tracking Sound Pro, audio flows from all four sides of your screen, and the center, to put you in the middle of the scene for an immersive 3D experience like no other.
