Laser cinema

Triple-Laser UST Built for Home Theater

The PX2-PRO features the award-winning TriChroma laser engine to achieve full coverage of the BT.2020 color space for a true-to-life picture. With its Digital Lens Focus the PX2-PRO delivers a razor-sharp 4K image in sizes from 90 to 130-inches. Add to that premium features eARC for lossless audio, Dolby Vision & Atmos, Filmmaker Mode, and smart home integrations and you've got yourself an Ultra Short Throw brimming with entertainment potential.

- Red + Green + Blue Lasers
- 107% BT.2020 Color Gamut
- 90 to 130-inch Projection Size
- 2400 ANSI Lumen Brightness
- 4K Resolution, 60Hz Refresh
- Dolby Vision® HDR
- 30W Dolby Atmos• Sound
- High-Speed HDMI with eARC
- Google TV

3 Pure Color Lasers

TriChroma really is R, G, B-eautiful. The PX2-PRO uses pure red, green, and blue lasers to achieve new levels of color performance, reaching 107%of the BT.2020 color space - that's color you've never seen on a display before.

Google TV

Google TV brings together movies, shows, and more from across your apps and subscriptions and organizes them just for you. Discover new things to watch with recommendations based on what you watch and what interests you.

Digital Lens Focus

Dial-in image focus from the convenience of your couch. Digital Lens Focus allows you to adjust the projector's focus mechanism with your remote - no need to mess with a focus wheel.

Filmmaker Mode

Filmmaker Mode disables any motion processing adjustments from the projector settings to ensure you're seeing content exactly the way the moviemakers intended.

Game Mode & ALLM

No need to manually change picture settings when you're about to drop in. Auto Low Latency Mode detects when a gaming console is the active source and automatically adjusts projector settings to optimize game performance.

25,000 Hour Laser Life

X-Fusion™ laser light technology provides up to 25,000 hours of entertainment without any loss in laser performance. And forget LED projectors with their slow warm-up time – the PX2-PRO has instant-on laser light to set the perfect picture immediately.

WiSA Ready

Integrate Laser Cinema with your wireless multi-channel surround sound system - the PX2-PRO is WiSA ready.

DLP® Technology by Texas Instruments

PX2-PRO uses the same DLP projection technology used in 9 out of 10 movie theaters to create laser-focused detail. With extreme clarity and depth of color, everything you watch looks truly cinematic.

Buttery Smooth Motion

With the PX2-PRO's microsecond-level processor response, you never miss a moment of the action. Fast-moving images are buttery smooth and crystal clear - so whether its sports, games, or action films the PX2-PROkeeps pace.

Smart Home Ready

Built-in WiFi, Bluetooth, Airplay and Apple Home, Google Assistant, Works with Alexa, and Control4 compatible, the PX2-PRO can be integrated with your smart home ecosystem to create automations to your heart's content.

Eye Safety

The PX2-PROtakes eye safety seriously with its eye-protection function that dims the picture when something gets a little too close. This is also a great way to keep little kids from touching the projector. Of course, you can always turn Eye Safety off.

Ports & Connectivity

- 2x Ultra High-Speed HDMI (1with eARC)
- 1x HDMI 2.0
- 1x Digital Audio Out
- 1x LAN Ethernet
- 1x USB 3.0
- 1x USB 2.0
