The Best Possible Picture Technologies for an Incredible Home Theater Experience

The Rvolution PlayerOne 8K is a new media player V with Dolby Vision and HDR10+ powered by the powerful Amlogic S928X-K/J chipset. The Rvolution PlayerOne 8K media player comes with an internal hard drive bay capable of hosting up to 32TB of movies, TV shows and concert files. It offers HDMI 2.1 output, compatibility with the latest AV1 codec up to glorious 8K resolution in HDR, HDR10+ or Dolby Vision and delivers stunning picture and sound quality to meet the needs of the most demanding home cinema enthusiasts.

Our amazing Rvideo user interface provides the best AI available on the market to organize your movie library. Rvideo along with the PC/Mac app offers advanced customization features that allow you to create custom categories and specific groups of movies, listen to original soundtrack clips while browsing titles, personalize your home page and add custom signature top banners like Director's Cut or BluRay Pure Audio. Use the intuitive PC/Mac app to upload your own title page content, movie covers and backgrounds.

Rvolution

PlayerOne 8K

8K, Dolby Vision and HDR10+
High Quality Media Player

Chipset: Amlogic S928X-K/J.

CPU: 2.0 GHz ARM Cortex-A55 + 1.9 GHz ARM A76.

GPU: ARM Mali-G57.

DSP: Video and Audio DSP with hardware acceleration. Native hardware 10-bit YUV support. Hardware performance optimizations for R_video UI.

Memory: 1MB L2 cache, 8GB RAM, 64GB eMMC NAN

HDMI 2.1: Displays up to 8K UHD resolution, 4x more pixels than 4K and 8x more pixels than 1080p Full HD. The 8K format provides the most impressive visual experience and delivers a smooth and sharp picture.

Video processing: The VS10 video processing technology offers an outstanding picture quality with improved dynamics, accurate colorimetry, increased contrast, solid deinterlacing and impressive upscaling (up to 8K resolution). Accurate HDR to SDR conversion.

Dolby Vision and HDR10+: Display your HDR, HDR10+ and Dolby Vision video content on a compatible display.

HDR Conversion: Convert your HDR video content into SDR to display it on your 1080p TV or projector managed by a brand new video processing for accurate color grading accuracy and luminance curve conversion.

10/12-Bit: Take advantage of powerful 10/12-bit YUV hardware decoding for professional-quality video display and benefit from increased nuance and reduced "posterization" ("banding") effect.

REC. 2020: Enjoy a wider color space for richer colors.

8K 50/60p: 4K and 8K 50p/60p at 50 Hz or 60 Hz.

Real Cinema: Advanced auto framerate detection (23.976 / 24 / 29.97 / 30 / 50 / 59.94 / 60 Hz).

Direct Output: Display your videos in their original resolution and frequency without scaling processing.

Operating System: Linux + Android 11.

HDD Rack Option with Hot Swap Function: Easily and quickly insert and exchange internal 3.5" SATA hard drives up to 32TB (2x 16TB partitions).

MKV Player: Playback SD, HD and UHD video content in MKV and other modern video file containers and formats, including top quality AV1/VP9/HEVC/H.265 video codecs with very high bit-rates (up to 300 Mbp/s in H.265/ HEVC and up to 250 Mbps in H.264/AVC).

BD ISO / UHD ISO / BDMV: Display Blu-ray and 4K UHD Blu-ray menus with full access to additional content, commentator audio tracks, theatrical versions, bookmarks and all extras with seamless branching support.

Connectors: Gold-plated HDMI Audio Video 2.1a (HDCP 2.2/2.3, CEC, Deep Color, 12-bit, xvYCC), 1x USB 2.0 (front panel), 3x USB 3.0, Mini Jack Audio/Video Analog Output, S/PDIF optical audio output (TO-slink), Ethernet Gigabit 10/100/1000 Gb/s, Wi-Fi with 2 gold-plated removable antennas, RF with dedicated antenna, IR input for IR extender, AC input, AC button On/Off, power LED and multi-segment LED display.

SMB Client/Server: Direct access from another Rvolution Player / NAS / Computer through your local network. Samba Client up to SMB 2. R_share technology.

Multichannel Home Theater Audio: Bitstream, downmix stereo and 5.1/7.1 (DTS, DTS-HD MA, DTS-HD HRA, DTS:X, DTS:X Pro, Dolby Digital, Dolby Digital EX, Dolby Digital Plus, Dolby TrueHD, Dolby Atmos, Auro 3D).

Subtitle Options: Forced subtitles support. Changing the sync, size, color, encoding, and vertical position of subtitles, including on Blu-ray (PGS) subtitles. Multiple external subtitles supported. SRT, SUB, PGS, SSA/ASS, IDX.

R_video Media Center: Organize your personal video collection directly using PlayerOne 8K or the PC/Mac app. Automatically scan and identify movies and shows complete with covers, animated backgrounds and original soundtracks during browsing. Customize top banners for format, version, bonus discs, Director's Cut, etc. Parental Control PIN Code.
