LG'S 2024 HU710PB 4K Portable Projector

LG CineBeam Qube 4K HDR turns your formal living room into a Luxury Theater

Don't let the aggressive low price and compact size of LG's new Qube portable projector think this is just another low cost projector. LG's new HU710PB delivers 4K UHD (3,840 x 2,160) resolution images with your choice of 50" to 120" image size. The triple RGB laser light source and LG's new SoC processor delivers exceptionally clear, sharp pictures with 450,000:1 contrast ratio and up to 154% coverage of the DCI-P3 color gamut. So you will enjoy all of your content as it was intended for you to see as the creator intended for you to enjoy all of the action and adventure and emotions they developed as the content was mastered.

LG's latest version of LG webOS 6, the CineBeam Qube gives you easy control to access all of your streaming services, e.g. Netflix, Disney+, Prime Video, YouTube and more.
