STANDALONE & SCALABLE, WITH ULTIMATE PERFORMANCE

AT A GLANCE

- Strato V works on its own (standalone) or as a player in a larger Kaleidescape system (grouped)
- Lossless multichannel audio, including Dolby Atmos, Dolby TrueHD, DTS:X, and DTS-HD Master Audio
- Playback delivers true 4K Ultra HD with bit rates up to 100 Mbps and frame rates up to 60 fps
- Strato V plays 4K movies in standard dynamic range, HDR10, and Dolby Vision
- Superb upscaling of HD and SD quality content to 4K resolution
- Compatible with popular control systems and universal remotes
- Compact form factor (2 players fit in 1 rack unit)
- Custom rack mount and wall mount hardware is available (sold separately)

Kaleidescape Strato V is the next generation of movie player technology. Providing stunning 4K Dolby Vision playback with lossless audio, Strato V works on its own and as part of a larger Kaleidescape system.

When standalone, Strato V is a single playback zone and stores approximately 10 reference 4K movies on an internal, solid-state drive. It features a new streamlined interface, optimized for navigating a small movie library. Strato V can download a Kaleidescape 4K movie in as little as 10 minutes over gigabit Ethernet, during movie playback, without sacrificing performance. Downloads become a candidate for automatic deletion 48 hours after playback, making room for more movies.

Storage may be added to Strato V by grouping it with Terra Prime movie servers. This returns Strato V's interface to the full Kaleidescape experience. Any number of Strato V movie players can be grouped with one or more new or existing Terra movie servers, scaling to the needs of the installation.

Strato V integrates new electronics and grounding topology. The addition of player-side lossless decode for high-bitrate audio codecs provides flexibility to maximize sound quality with a range of downstream components. Every signal has been carefully upgraded to provide higher quality and robustness. Strato V is housed in a modern black anodized aluminum and glass chassis, delivering sleek and stylish design.

Strato V has access to the Kaleidescape movie store, the world's only digital movie provider with lossless audio and full reference video quality. The movie store offers thousands of titles including movies, TV series, and concerts. Movies are available with lossless multichannel and object-based audio, including Dolby Atmos and DTS:X.
