

Rvolution

PlayerPro 8K

8K, Dolby Vision & HDR10+
Elite Digital Media Player

Value Electronics
Factory Direct Rvolution Dealer

Chipset: Amlogic S928X-K/J.

CPU: 2.0 GHz ARM Cortex-A55 + 1.9 GHz ARM A76.

GPU: ARM Mali-G57.

DSP: Video and Audio DSP with hardware acceleration.

Memory: 1MB L2 cache, 8GB RAM, 64GB eMMC NAN

Linear Power Supply with Toroidal Transformer: Noise-free signal, resulting in enhanced image quality with deeper blacks, as well as astonishing audio precision.

TCXO Clock: The use of TCXO Clock elevates home theater experiences by ensuring ultra-precise timing and synchronization of audio and video, significantly reducing jitter for a truly immersive viewing experience.

HDMI 2.1: Displays up to 8K UHD resolution, 4x more pixels than 4K and 8x more pixels than 1080p Full HD.

Video processing: The VS10 video processing technology offers an outstanding picture quality with improved dynamics, accurate colorimetry, and impressive upscaling.

Dolby Vision and HDR10+: Display your HDR, HDR10+ and Dolby Vision video content on a compatible display.

HDR Conversion: Convert your HDR video content into SDR to display it on your 1080p TV or projector managed by a brand new video processing for accurate color grading accuracy and luminance curve conversion.

10/12-Bit: Professional-quality video display and increased nuance and reduced "posterization" effect.

REC. 2020: Enjoy a wider color space for richer colors.

8K 50/60p: 4K and 8K 50p/60p at 50 Hz or 60 Hz.

Real Cinema: Advanced auto framerate detection (23.976 / 24 / 29.97 / 30 / 50 / 59.94 / 60 Hz).

Direct Output: Display your videos in their original resolution and frequency without scaling processing.

Operating System: Linux + Android 11.

Dual HDD Rack: Easily and quickly insert internal 3.5" SATA hard drives up to 64TB (2x 32TB).

Bluetooth Remote: Compatibility with both IR and Bluetooth. Furthermore, it offers IP control capabilities, allowing integration with third-party systems like Crestron, ProControl, RTI, among others.

MKV Player: Playback SD, HD and UHD video content in MKV and other modern video file containers and formats, including top quality AV1/VP9/HEVC/H.265 video codecs with very high bit-rates (up to 300 Mbp/s in H.265/ HEVC and up to 250 Mbps in H.264/AVC).

BD ISO / UHD ISO / BDMV: Quickly display Blu-ray and 4K UHD Blu-ray menus with full access to additional content, commentator audio tracks, theatrical versions, bookmarks and all extras with seamless branching support and direct access options.

Connectors: Gold-plated HDMI audio video 2.1a (HDCP 2.2/2.3, CEC, Deep Color, 12-bit, xvYCC), 1x USB 2.0 (front panel), 3x USB 3.0 (Low Noise Audio Output), RCA analog output, Coaxial and S/PDIF Optical audio output, Ethernet Gigabit 10/100/1000 Gb/s, Wi-Fi with 2 gold-plated removable antennas, RF with dedicated antenna, IR input for IR extender, ground output, AC button On/Off, power LED and multi-segment LED display.

SMB Client/Server: Direct access from another Rvolution Player / NAS / Computer through your local network. Samba Client up to SMB 3. R_share technology.

Multichannel Home Theater Audio: Bitstream, downmix stereo and 5.1/7.1 (DTS, DTS-HD MA, DTS-HD HRA, DTS:X, DTS:X Pro, Dolby Digital, Dolby Digital EX, Dolby Digital Plus, Dolby TrueHD, Dolby Atmos, Auro 3D).

Subtitle Options: Forced subtitles support. Changing the sync, size, color, encoding, and vertical position of subtitles, including on Blu-ray (PGS) subtitles. Multiple external subtitles supported. SRT, SUB, PGS, SSA/ASS, IDX.

Rvideo Media Center: Organize your personal video collection directly using Rvolution Player or the PC/Mac app. Automatically scan and identify movies and shows complete with covers, animated backgrounds and original soundtracks during browsing. Customize top banners for format, version, bonus discs, Director's Cut, etc. Parental Control PIN Code.
