Features

Get more from your movies with 4K Ultra HD™

Experience movies with four times the resolution of conventional Blu-ray™ (Full HD), with new 4K Ultra HD Blu-ray™ discs¹

HDR10

An HDR 10 signal contains up to 100x the brightness of a standard (SDR) signal, massively increasing peak brightness while retaining deep and highly-detailed blacks, for an entirely new viewing experience.

DOLBY VISION™⁴

Bring scenes to life with striking highlights, deeper darks and vibrant colors. Dolby Vision™ is an HDR solution that creates an immersive, engaging cinematic experience in your home.⁴

All the colors in nature

Support for BT.2020 color spaces means access to a much wider range of colors than conventional TV signals offer. This ultra-wide color space means content creators can deliver much more saturated and realistic color from deep aquatic blues to natural greens and vibrant reds.

A richer picture on any screen

Watch 4K HDR films, and enjoy additional shadow and highlight detail.

Listen to multiple formats

The UBP-X700U's playing power goes far beyond 4K UHD Blu-ray™ discs. You can watch and listen to anything you like –including most high-definition video and audio formats. The X700U also upscales content to the highest quality possible, so you're always enjoying movies and shows in high resolution.

Ultimate disc drive

Play all your CD, DVD and Blu-ray™ collections conveniently with one universal player.

Digital music compatible

The UBP-X700U supports a range of music formats, from AAC and PCM audio to 11.2MHz DSD.

Dolby Atmos®

Dolby Atmos® treats sounds as separate objects, releasing them from the restraints of typical channels to move freely around and even above you for deeply immersive surround sound.⁴

Watch and play

Play movies via USB. The UBP-X700U supports the most popular video file types so you can watch your favorite films and home movies.

DTS:X™

DTS:X audio can create a large number of audio objects that adapt to your speakers in real time to get the biggest impact out of every movie soundtrack.³
